

# ***Bentleys' Update – Sept '23***

Dear Friends,

Lucinda and I are grateful to our heavenly Father for so many things. In the midst of life's challenges and occasional stormy weather, He has always been worthy of our praise and worship, our thanks for his provision and our trust for his unfailing guidance in all circumstance. The Father's touch has been evident in our series of meetings with the teams in outreach in the Mid Americas Area, and then with all the leadership of the five Areas of the Americas Region.

We are also grateful for those who give to provide for needs in the various ministries we are involved in. Giving toward the replacement of equipment at the Quechua Radio Station has already been sufficient to enable the purchase of a mixing console, two computers and monitors. We want to express our thanks for the generous provision to enable the personnel at the radio station in their day-by-day ministry of program production, broadcast and streaming of the Good News to the Quechua audience in the Andes of Bolivia.

Another motive of praise to God is his provision for Fundación Emanuel (Emanuel Foundation) – the children at risk ministry in Cochabamba, which has occurred. The vision of the ministry has been to reach out with the Gospel and provide daily educational and nutritional support to more children. Space in the present property that houses the

New Property

ministries, and finances, have limited the number of children that can be worked with to about 50 children. It's been the dream to purchase a larger property to reach out to double or triple the number of children. The news – funds have been given and a larger property is now purchased. The new property is in the same neighborhood as the present property, which is an additional cause for praise as the location remains in the area of need.

Kids of the program praying for God's plan for the new property

Construction of the facilities to reach the larger number of children who are yet to hear the Gospel will commence soon, and progress will go forward as God provides for the different phases of building. Lucinda and I presently plan on heading to Bolivia near the beginning of November, once we finish our presently scheduled meetings and travels in the northern hemisphere for the Regional Leader role.

In His harvest fields with you,

*Paul & Lucinda*
