

## February/March Missionary Praise/Requests

### Ministries RBC Support:

#### **BENTLEY:**

Praise that they were able to attend meetings with all of the Pioneers Area Leaders, Regional Leaders and International Office leaders at a center in Nairobi, Kenya. There were several days of training for the almost 60 Area Leaders of Pioneers from around the globe.

Approximately 42% of the world population is yet to be reached with the Gospel. More than 7,000 people groups remain classified as unreached. Pray that God guide us in extending our “reach” with the Good News of Jesus - that He send more laborers into his harvest fields.

The work of the Quechua radio station, Mosoj Chaski, is going strong with the new director. It has been discipling the Quechua people for 25 years. Please pray for its continued work.

Praise for a group from Massachusetts that came to work with the children-at-risk program.

Pray for Santiago Mica, the principal trainer of the mobile Quechua Bible training, one of a few ministry trainings for the Quechua people. It is a tiring role and another trainer is needed to advance the program.

#### **HINZMAN:**

Wendy plans on moving to Walton Beach, Florida in June, 2024, and opening to guests in July 2024.

She hopes to provide rest and transformation for global workers. 50% leave within the first 5 years. Most relate they can't take the rest they need because of lack of funds. The Blessing will be free of charge if enough money can be raised. The need is for \$2,000 per month.

**BRAKE:**

Pray for guidance as they prepare for next year knowing that 25% (seniors) are graduating and leaving meaning many of the student leaders and 25-30% haven't arrived at campus yet.

Pray for the Keene CRU which is starting slowly.

You can sign up to pray for the 4 college campuses where CRU is present through April and May.

Praise that their children have been healthy and doing well.

Praise for the Cru student trip to Costa Rica distributing filters to make drinking water safe and that the many people they were able to witness to would join the church which sponsored them.

Prayer for Edward as he and an understaffed team prepare for summer missions trips.

**ODESS:**

Rick had pancreatitis and was hospitalized. Pray for his recovery.

Ruth served at a women's retreat in Honduras. They traveled to a Pastors' and wives conference in El Salvador. They went on a missions trip to **Chalchuapa, El Salvador**, to continue work on a church, work with the youth and distribute food.

In April they will be going to Guatemala to continue helping to work on a child sponsorship program and be able to connect people from the US and beyond to sponsor them. They have some open spots on short term missions trips this summer. They need \$1868.48 more monthly to be totally supported.

**CEF:**

CEF is still working mostly in northern NH and the Keene area. Jessica Spooner has applied to be the state director. 5 day clubs, fall Good News clubs and Christian Youth in Action training are being developed. Pray for guidance and support.

**HALBACH:**

## Prayer and Praise

1. Praise for the opportunity to teach students at CCA how to study God's Word for themselves. Pray for students' hearts to be open to the Lord and for our staff to have wisdom as they minister. It has been a challenging year, but also much fruit.

2. Pray for our upcoming trip with High Schoolers to Philadelphia.

3. Pray for summer ministry preparations for day camps and VBS's.

4. Pray for children to come to know the Lord through these outreaches.

5. Praise for the Lord's work in children's hearts and lives through the Charlestown Good News Club. Continue to pray for their spiritual growth.

6. Praise for new prayer and financial supporters who have joined our ministry team. We continue to trust the Lord to provide so we can keep all our ministry activities free for children and families when they visit our farm.

**OHLIN:**

Everything seemed to go wrong on their trip to Armenia, Colombia for language acquisition and English training. Diane had COVID and couldn't go. Paul and a co-worker's flight was delayed meaning they missed their connecting flight. After a cold, uncomfortable night in the airport they were able to complete their flight and still start on time with the training. Paul said it provided a time of growth. The people who were trained are now waiting to see where in the world they will be working.
